Customers and Service

Please read and
fill out through
page 5

None of us is as smart as all of us.

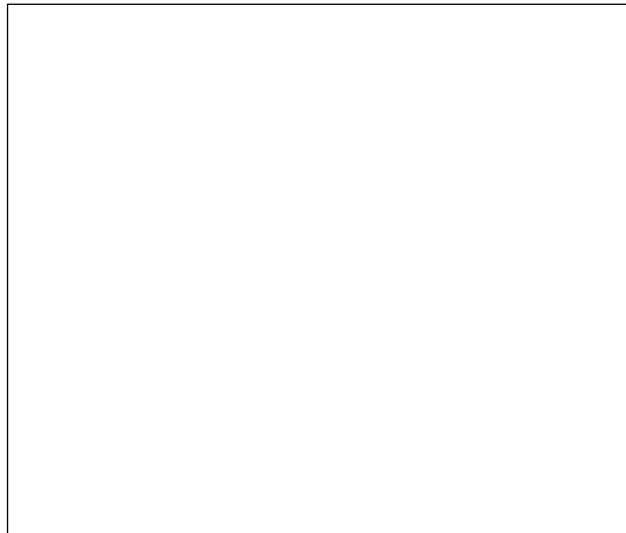

Ancient Japanese saying
and motto of Collective Wisdom, Inc.

Providing good customer service isn't easy. You cannot mandate it, standardize it or make it happen through policies and procedures. You have to earn it. How do you earn it?

"It" by the way, is not simply behaving in a certain way with a customer. Good customer service is more an attitude than behavior. If you think of good customer service as an interaction between two people, you must understand the two people and what the interaction should be. And it probably should be different each time.

With that in mind, today we will take a look at people, you and everyone else and figure out how to make interactions as positive and productive as they can be.

Who are your customers?

A large, empty rectangular box with a thin black border, intended for a student to write their answer to the question 'Who are your customers?'. It occupies the right half of the page below the text.

Human Nature

People are funny. We have the most developed brains on earth, but when you hear a person (usually a male) yell, “Hey, watch this,” you can usually begin calling for an ambulance right away. We go to casinos even though we know the house has the advantage. As soon as we drive our new car off the lot, it loses thousands of dollars of value. Some American adults believe that chocolate milk comes from brown cows.

Okay, sometimes our brains don’t work quite as well as they should. But first responders run toward trouble rather than away from it. We are the most charitable nation in the world. Our work productivity is also top in the world.

But on the other hand, our state and national governments seem to be stuck. We’re the fattest any nation has ever been. About two percent of us are geniuses about two percent complete morons with the rest of us somewhere in between.

The customer who walks through your door is a complex growing, changing amalgam of traits, abilities, interests, fears, intents, resources, and emotions, who deserves the best we can provide. **Our task today is to figure out who our customers are, what they want and need, and how to provide it.**

Assumptions

- What pleases one person may not please another person (and, what pleases a person one day may not please them on another day).
- There are bad ways to provide service, but no one best way.
- Usually you cannot MAKE something happen; the best we can do is increase the probability of something happening (or not happening).
- The best service is done through a high-performing team environment.
- The best customer service is an attitude, not a behavior.

Anticipated Benefits

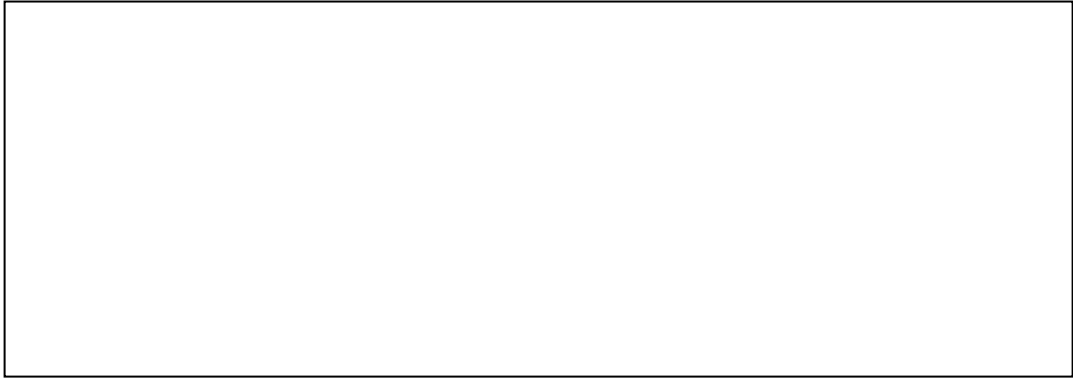

1. All employees will become skilled service providers
2. A continuous improvement culture will be generated
3. Efficiency, morale and satisfaction will skyrocket

The objective of this workshop:

All participants will be able to design, implement and sustain an effective and engaging customer service improvement culture.

Is this a compelling task for you? YES NO

Why?

What else would you like to get out of the workshop?

In addition to what you personally seek from this workshop, we have three basic goals:

1. Understand the critical people elements of any organization, with an emphasis on Customer Service
2. Be able to balance all efforts of continuous process improvement with developing people and their interactions.
3. Create and sustain continuously improving customer service and developing people back at work.

The desired cultural change is for all employees to have the attitude that:

Every person with expectations of our organization

Will be pleased with the interaction.

How will you measure success (what will it look like, what will be in place; what will be happening?)

The Organization-Individual Divide

The eternal rift between an organization and the individuals who work in it.

Describe the O-I Divide in your organization

This painting (Persistence of Memory) by Dali is strange. What does it mean?

The Seven Billion Rule is:

Fantastic Training Opportunity!

THE OIL DRUM STORY

Harnessing the Speed of Thought (HST)

1. _____

2. _____

3. _____

4. _____

5. _____

THE BASKETBALL STORY

Ob-Quests to try

1. On the way to work you notice an employee driving recklessly.
2. Joe is chronically late to meetings.
3. Susan told a great story at a presentation this morning.
4. Your child got into a fender-bender this afternoon.
5. You received a “hero-gram” from a colleague.
6. Your boss used fake facts in a presentation today.

Tantastic Training Opportunity!

1. _____

2. _____

3. _____

4. _____

5. _____

CUSTOMER SERVICE

*A customer is anyone who has an expectation of you
while you represent the organization.*

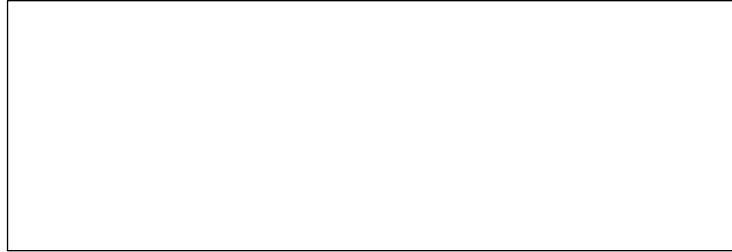

Describe good customer service you have received:

Describe poor customer service you have received

What is the difference? What does good service require?

THE FOUR Cs OF SERVICE

**CONNECT
HUMAN-TO-HUMAN**

COLLABORATE

CONTRIBUTE

CONFIRM

Practice with typical request and report out to rest of group

Do the four Cs meet our requirements of good service?

Foundation Review

What do you know now about your organization, people interactions and customer service?

TEAMS

“Talent wins games, but teamwork and intelligence wins championships.”
Michael Jordan

Teams

(In groups of 3-5 people)

List what you believe are the 4 most important characteristics of a solid team. Be ready to present to the larger group.

1. _____

2. _____

3. _____

4. _____

The Four-Part Teaming Model

High-performing Teams are individuals who deliberately and openly fuse their individuality to pursue group goals and their teammates' highest good.

“Coming together is a beginning. Keeping together is progress. Working together is success.” Henry Ford

Form a learning team for today with the compelling task of learning what is important to learn today and successfully take it back to the workplace.

Share your effort.

The Value of VALUE STREAMS

Create a values stream of a common customer interaction. Be sure to include inputs and outputs.

A value stream are all the steps taken to add value (or not add value) to a customer service interaction. Each step is in the form of a verb and noun. For example, “Fill in application” can be one step in a value stream. Inputs can include customer expectations, difficulty finding parking, service reputation and the like. Outputs can include receiving a document, permission to act, more red tape, etc.

When you present your value stream, be sure to identify which steps actually add value (something they see as valuable to them) and which ones are done for other purposes, such as laws or regulations, record keeping, etc.

Extras

Every person-to-person engagement should include **SIR**

SERVICE

INFORMATION

RESPECT

Sometimes customers turn sour.

$$F = E - R$$

$$A = F + H$$

Significant problems can occur when the other treats you like an object or stereotype.

PERSONAL MISSION STATEMENTS

(A conscious or unconscious definition of what I want
from my job.)

My personal mission statement

Personally meaningful vocational goals

Skills that should be acquired for good customer service and how they will be measured:

[illegible]

Review

What do you know so far:

Tools and concepts (use wisely—tools and concepts are not objectives)

- Huddles
- Feedback
- Organization's vision
- Measure relationship between customer and employee
- Skills maps (and visual control)
- Innovation
- Hand offs
- Virtual customers
- STORIES (stone masons)
- Moments of Truth
- Service as a promise (reliability is critical)
- Hope (customer makes an emotional investment)
- Customer is grateful
- Feeling special
- One person basic accountability for value stream
- Plan for unusual situations

Implementing

If you don't plan, you will fail.

If you follow the plan, you will fail.

Various successful army generals

Clarify the Issue:

When you return to work you will create and sustain an organizational customer service improvement culture. This is the proposed issue for you to address;

The Issue:

Making sure what was learned is well-implemented back at work

Define your goal

The goal (as measured by):

Solution:**

Prepare the People (Checklists from The People Side of Lean Thinking)

The company has an emotionally engaging vision statement. ☐

Employees know what the company vision statement is. ☐

The company has a compelling mission statement. ☐

Employees use the vision and mission statements to guide their work. ☐

Employees have influence over how their work is performed. ☐

Most improvement suggestions come from the workers rather than from leadership. ☐

Leaders are eliminating their fat behaviors and acquiring lean behaviors. ☐

Employees give leaders feedback on the leaders' improvement efforts. ☐

There is a spirit of learning on all levels of the organization. ☐

The work environment is kind. ☐

Errors are addressed with a standardized and “Just” response. ☐

Difficult conversations achieve satisfying outcomes. ☐

Trying and failing is an accepted way of learning. ☐

Every employee is taught how to be creative. ☐

Every employee is given the support necessary to try innovations on-the-job or in simulations. ☐

Effort, not just results, is rewarded. ☐

Employees define change as part of the job, not a new initiative of some sort. ☐

People see change as something they are in charge of, not something done to them. ☐

Change helps fulfill the vision, not solve a crisis. ☐

People love their jobs because they feel a sense of contribution. ☐

People know they are an important part of a team doing important work. ☐

Leaders are learning standardized leadership/management tools and models. ☐

Prepare the People Workgroup Checklist

Each member of the team knows why he/she is necessary and valuable to the team. ☐

- Every member knows why every other member is important to the team. ☐
- Every member knows why the leader is important to the team. ☐
- The team has a compelling goal. ☐
- The team uses formal and informal ways to influence how the team functions. ☐
- All members of the team have declared personal rewards for being on the team. ☐
- The team is constantly trying to improve the various team value streams. ☐
- The team is learning process improvement tools just in time. ☐
- The team uses specific problem-solving tools. ☐
- The team leader is receiving constant feedback and is making changes as needed. ☐

Prepare the People Individual Checklist

- Someone in authority knows the employee's mission statement and is doing what is necessary to help the employee fulfill it. ☐
- Employees report that they are receiving their identified personal rewards. ☐
- Each employee can accurately declare why he or she is on the team. ☐
- Every employee reports an interest in moving toward great customer service by identifying and eliminating negative activities. ☐
- Every employee works with teammates on the value stream to create greater value. ☐
- Each employee enjoys a sense of belonging. ☐
- Each employee reports a rewarding work/life balance. ☐
- Every employee takes personal risks for the good of the company. ☐

Respect the People Checklist

- Employees define "Customer service" to include everyone and add value for all customers. ☐
- Improving the value stream is a team effort. ☐
- Employees own the value stream, not their jobs. ☐
- Interactions are customer driven. ☐
- Employees are trying new ideas on their work. ☐
- Standard work is defined at the lowest level. ☐

- Standard work is defined locally. ☐
- Information is shared globally. ☐
- Service tools are not goals. ☐
- No one leaves training or a meeting confused. ☐
- Training is to specified levels of skill. ☐
- Leaders are competent with “soft skills.” ☐
- Mistakes and unstable processes are frequently reported. ☐

Grow the People Checklist

- Employees are rarely, if ever, surprised. ☐
- Managers are often pleasantly surprised by their staff. ☐
- Employees accept accountability for value outcomes. ☐
- Leaders are effective storytellers. ☐
- Employees are providing more feedback than ever before. ☐
- Employees report being in a “partnership” with their boss. ☐
- Turnover is at historic lows. ☐
- Growing the people is measured in clear, public and reinforcing ways. ☐
- Employees repeat some of the great company stories. ☐

Sustaining change is easier than ever before. ☐

Employees give training high marks and request more training. ☐

Employee performance continually improves. ☐

More to Do Checklist

Leaders are working together to improve publicly declared management skills. ☐

Company Service gurus have learned how to coach. ☐

All employees are acquiring value-increasing skills. ☐

Late adapters are supported. ☐

Inadequate team members are helped to find more appropriate opportunities. ☐

Process and people improvement are equally valued and reported on equally as well. ☐

Employees enjoy significant work security. ☐

Managers view teaching as one of the most important components of their work. ☐

Managers use best practice management tools. ☐

Employees are increasingly fulfilling their potential. ☐
